Lyd	WireTap pro	\$ 19,00	Ambrosia Software	http://wiretap-pro.en.softonic.com/mac
	<p>WireTap Pro was succeeded by WireTap Studio in 2007, but I still prefer the Pro version because of it's simplicity, discreetness and easy of use.</p> <p>You won't find any mention of WireTap Pro on the developer website apart from old press releases but this review is proof that it does still exist! It's harder than you'd imagine to find a decent, lightweight and simple recording tool that will record from your microphone, speakers or an input device. WireTap Pro does everything effortlessly and since using it, I've never looked back.</p>

Tekst	MacLorem	Gratis	Judebear Software	http://judebear.daveward.net/
 MacLorem 2.2	MacLorem generates random filler text for artists, graphic designers, typesetters and others who need to generate mock-ups or spec art for clients, publishers or employers. Most people who have done mock-ups are familiar with the classic "Lorem ipsum" phrase, the Latin text which is often used to fill in spaces where text will be put at a later time. MacLorem uses the classic "lorem ipsum" phrase to generate random text, providing more variety and a more realistic, non-repetitive and naturally uneven look. Simply clicking on a button marked <i>Generate</i> will create random text, placing it in MacLorem's main window and simultaneously placing it on your clipboard so it is ready to paste into the document you are designing.
